Membership year starts on April 1<sup>st</sup>. Members who join after April 1<sup>st</sup> will have their next year's dues pro-rated.

Are you an A.R.R.L. Member?     Yes     No

Are there any special interests that you have in amateur radio besides Repeaters and HF/UHF communications?

I.C.R.C. is a Service Club. We provide VHF and UHF repeater service to amateurs without limitations concerning memberships. The Club has a stand alone packet node on one of our repeater sites. The Club supports Single Channel Digital on one VHF repeater, and emergency communications in times of emergency or disaster. ICRC provides volunteer examiners for testing for new hams or those who wish to upgrade, and we are pleased to help new hams with their setups, both HF and VHF.
